

Rinnai

Gas Boosted Solar

Rinnai Prestige Gas Boosted Solar Systems

Rinnai draws from the expertise of over 70 years experience in designing and manufacturing Hot Water Systems. This allows us to give you a refined range of the most highly efficient quality choices available.

Rinnai Prestige offers:

- Highest quality Stainless Steel
- Commercial grade construction
- Environmentally friendly alternative
- Continuous Flow Gas Booster – same technology as the Rinnai INFINITY
- No sacrificial anodes required
- Reduced maintenance costs
- Specifically designed for solar reducing the need for boosting
- Tanks exceed the Minimum Energy Performance Standard (MEPS)
- Minimum heat loss
- Highest RECs awarded for tank capacities
- Life expectancy of one tank will out last two enamel tanks
- Stainless steel tanks are recyclable
- Lower embodied energy
- Flexible system configurations to suit your needs
- Collectors have highly selective surfaces
- Manufactured in Australia for our varying conditions
- Minimised heat loss and maximise efficiency
